Application/Control Number: 10/787,492

Art Unit: 2835

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The allowability resides in the overall structure of the device as recited in amended independent claim 1, and at least in part, because claim 1, as amended, recites: "rectifier module comprising [...] metallic conductive blocks on said one substrate to serve as raised pads, said conductive blocks being connected to corresponding leads disposed above said one substrate". The aforementioned limitations in combination with all remaining limitations of the claim are believed to render said claim 1 and all claims dependent therefrom patentable over the art of record.

Examiner has cited on PTO-892 additional references that teach electrical systems employing battery charging rectifier modules with heat sinks. None of the references of record taken either alone or in combination is believed to render the present invention unpatentable as claimed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anatoly Vortman whose telephone number is 571-272-2047. The examiner can normally be reached on Monday-Friday, between 10:00 am and 6:30 pm.. If
